

ANDALUCÍA EN LA HISTORIA

Nº82: The forgotten front

ABSTRACT

The new issue of 'Andalucía en la Historia', coordinated by the researcher by Joaquín Gil Honduvilla, PhD in History and Colonel of the Military Legal, reveals new aspects of the Spanish Civil War in Andalusia.

The aim of the six selected works is to visualise this conflict from different points of view: the authorship of the military coup d'état in Andalusia, the role played during the first months by the Civil Guard, the phenomenon of the fifth column, the most relevant documents in the beginning of the putsch and the organisation of the republican army as well as the structure of the Group of Tanks
